## Astral Travel and Dream Landscapes

☛ How many times have you been told “*It’s only a Dream*”?

Flying, breathing underwater, traveling through space & time, lucid dreams, past life dreams, visiting with departed loved ones – these are just some of the experiences awaiting you in your sleep. When you have a bad dream, knowing that it’s *just a dream* can be comforting, however, it can also feel dismissive if the dream feels important to you. The power of your dreams to bring ideas, comfort, healing and communication from your higher self or Spirit should not be underestimated.

Join Megan Edge, Master Healer, author and educator for an evening of Astral Travel and Dream Exploration as she helps you understand your dream landscapes, including the power of your day-dreams.

She’ll also be taking you on an Out-of-Body experience.
